OneAero Announces Recipients of the 2008 OneAero Top Shop Awards

Hamburg, Germany. 10-April-2008

OneAero announced today the recipients of the first ever OneAero Top Shop Awards. This award is being presented to fifteen repair centers, from around the world, for their role in providing the aviation industry with superior customer support, exceptional turn-around-times and competitive repair pricing.

OneAero began soliciting nominations for this award in mid-December of 2007. Over 8000 industry professionals were invited to participate in the nomination process, by providing names of repair facilities that they felt offered excellent customers service, quality repair workmanship, turn-times, and competitive pricing structures.

“On behalf of OneAero, we are pleased to present this award to those companies who lead by example, in going the extra mile to improve efficiencies within the maintenance sector of our industry.” said Justin Spaulding, President of OneAero. “The fifteen companies chosen for this award were selected by their peers, which is one of the greatest compliment one can receive.”

Nominees for the 2008 OneAero Top Shop Awards are as follows:
